JASON

Sunón

As if you were in a Norwegian Wood with lush trees and boundless land in sight. Elks and brown bears are chasing after each other. Behind them, glaciers and rivers are stretching on along the horizon...Inspired by splendid Nordic scenery, Jason's designer integrates the aura of natural landscape into his design, and creates an office environment with burlywood where men and nature could co-exist harmoniously. Sit down, immerse yourself in the fragrance of nature, and free your soul from urban noises.

FAS-level white oak from North America painted with food-grade wax oil finishing, Natural texture and colors are exposed with 45-degree beveled edges, creating a perfect combination of beauty and superior touch.

It never tries to attract attention by carrying out bold posture. Legs with smooth lines and concealed cable management devices, make it understated yet powerful.

The one-piece side cabinet with a combination lock at your command and tray designed on the top will make your work more organized.

Be minimalist. Less is more.

Say no to tedious office filled with cubicles. A modern office should be flexible enough and efficient spatially. For individual working, for meeting, for lunch, for reading... This is a space that has blurred the boundary of office and home.

The environment-friendly felt desk-mounted screen will create a new world for you. No matter for office working or communication, this space is all yours.

In a room filled with winter sunshine, there stands a high office desk, presenting the notion of minimalist aesthetic with the understated charm of burlywood.

It is processed with patented edge-banding technology with wood grain that is as real as the work of Mother Nature. The four corners are meticulously rounded to provide better support for your arms. Connected with mortise and tenon joint technique, it is a work of craftsmanship.

Nights are long in winter across the Arctic Pole. Finnish people always like to drink a little with several close friends in a time like this. See, who's proposing a toast and starts to sing tipsily yet happily? And who's lighting the campfire and begins another party? The dancing flame illuminates the lake, and lights up the dark winter.

When burlywood meets mellow curves, when fabric is dyed in Morandi grey, and when ideas collide, you will see what it is like to be in a pleasant communication.

A cup of coffee and a book, a bookshelf and a chair, a blanket and a pillow:
these are all we need to create a scene of Nordic style.
